To:

From: Shawn Merriman, Chief Building Official

Subject: Smiths Falls 2,3,4,5 agreement signed with Recurrent Energy

This letter is to inform the recipients that Recurrent Energy, Developer of **the four solar projects**, proposed in the ward of North Elmsley and the Township have a signed agreement in place for the projects. Please note that to date only one has received approval from the Ministry of Environment this being Smiths Falls 5.

Therefore, be aware that the well monitoring program will be starting very quickly especially for those property owners within 750 meters of the Smiths Falls 5 Project but for the other projects in due time. The Township will be coordinating with property owners and all parties involved so this program will run at the property owner's convenience. Should you have any questions, please contact this department.

Will your property be eligible for well monitoring? Verification will be confirmed with each individual land owner but should your civic fall between 827 and 1249 on Armstrong Road, greater than 598 on Station Road or the South side of Drummond Concession 1 between 485 and 810 anticipate a request for information regarding your well to determine if it within the monitoring area. Should you feel that your well is within 750 meters of the Smiths Falls 5 project do not hesitate to contact this office.

Respectfully yours,

Shawn Merriman
Chief Building Official BCIN 34599
Township of Drummond/North Elmsley
