December 19, 2011

To:

From: Shawn Merriman, Chief Building Official

Subject: Update on large scale solar arrays within two kilometers of recipients address.

This letter is to inform the recipients that Smithsfalls 4 solar project which is proposed at the civic address of 319 Drummond Concession 1 has been posted on the Ministry of Environment EBR website. Please find a copy of this web page included in this letter. Comments must be received by the Ministry no later than January 13, 2012 and can be accomplished by mail, email, or through the Township's office and this department.

Next be advised that as of December 16, 2011 no decision has been reached by the Ministry of Environment on either Smithsfalls 5 which is at the intersection of Station and Armstrong roads or Smithsfalls 2 which is on Buttermilk Hill road. However, the Ministry has informed the Township that action is expected very soon on one or both projects.

Discussions are continuing between the Township and the Developer and the Township shall continue to keep all ratepayers advised of the projects.

This makes the fifth letter that the Township has sent out to residents near the proposed solar sites.

Respectfully yours,

Shawn Merriman  
Chief Building Official BCIN 34599  
Township of Drummond/North Elmsley
