November 28, 2011

To;

From: Shawn Merriman, Chief Building Official

Subject: Update on large scale solar arrays within 2 kms of recipients address.

This letter is to inform the recipients that Smithsfalls 3 solar project which is proposed on the second property west of Burns side road and on the north side of Armstrong road has been posted on the Ministry of Environment EBR. Please find a copy of this web page included in this letter. Comments must be received by the Ministry no later than December 25, 2011 and can be accomplished by mail, email, or through the Township's office and this department.

Next be advised that as of November 25, 2011 no decision has been reached by the Ministry of Environment on either Smithsfalls 5 which is at the intersection of Station and Armstrong roads or Smithsfalls 2 which is on Buttermilk Hill road.

There have been some discussions with Recurrent Energy and the Township but at this point there is no information to be released as in many areas both sides still has concerns.

This makes the fourth letter that the Township has sent out to residents near the proposed solar sites.

Respectfully yours,

Shawn Merriman
