From: Shawn Merriman, Chief Building Official

Subject: Smiths Falls 5 tentative agreement notice

This letter is to inform the recipients that the Developer of **SMITHS FALLS 5** solar project, Recurrent Energy, and the Municipality has reached a tentative agreement regarding this project. This is the project, which is proposed at the land located on the north side of Armstrong Road and the intersection of Station Road.

This agreement does not represent a position of approval by the Township but rather an ability of the Township to act neutrally for all parties involved. This includes but is not limited to such important topics as water/well monitoring, traffic management, road maintenance, municipal drains, emergency management planning, plan review, and confirmation of implementation.

This agreement is not an all encompassing document that creates a specific solution to every concern that is currently held by many parties but a framework for working together through communication and good will.

The Building Department encourages all who wish more details regarding this agreement to contact this department to arrange for a mutually agreeable appointment.

Respectfully yours,

Shawn Merriman
Chief Building Official BCIN 34599
Township of Drummond/North Elmsley
